

# 3663 First for Foodservice Greenhouse Gas Policy

3663 is the leader in UK foodservice distribution, specialising in delivering a complete supply solution of frozen, fresh, chilled and ambient foods, non-foods, catering equipment and wine to thousands of catering outlets every day. The product range incorporates major brands alongside a comprehensive range of 3663 own brand products under the Smart Choice, Coronet and Springbourne labels.

3663 recognise that the food industry has a significant impact on climate change through the emission of greenhouse gases incurred in day-to-day operations.

3663 is committed to continually improving its environmental performance by reducing emissions through the implementation of this Greenhouse Gas policy across the business.

## Specifically, 3663 aims to

- Identify and manage greenhouse gas emissions associated with the operation of the 3663 commercial fleet and estate.
- Measure Greenhouse gas emissions in line with the Greenhouse Gas protocol
- Reduce greenhouse gas emissions in line with government targets
- Share best practice in managing greenhouse gas emissions with sector bodies including:
  - the British Frozen Food Federation (BFFF),
  - the Food and Drink Federation (FDF)
  - the Food Industry Sustainability Strategy (FISS)

Short term targets for reductions in greenhouse gas emissions will be detailed within the ISO 14001 certified Environmental Management System.\*

This policy will be reviewed by the Sustainability Board on an annual basis.
